

Quality Policy

- We are committed to enhancing our customers' satisfaction through manufacturing plastic moulded products.
- We are committed to continual improvement in terms of quality, technology, human resources, and productivity.
- We are committed to protecting our environment by preventing pollution and taking actions against practices that negatively impact the environment.
- We are committed to ensuring a safe and suitable work environment throughout the organization.
- We are committed to complying with all relevant statutory and regulatory requirements.
- We shall review the effectiveness of our Quality Policy on a regular basis and set appropriate objectives to achieve the same.
